WISCONSIN PUBLIC SERVICE
COMMISSION

2002 MAR 29 A 9:58

RECEIVED

**PRIVATE UTILITY
ANNUAL REPORT**

OF

Name: CONSOLIDATED WATER POWER COMPANY

Principal Office:

WISCONSIN RAPIDS, WISCONSIN

For the Year Ended: DECEMBER 31, 2001

**ELECTRIC, WATER, OR GAS UTILITY
TO
PUBLIC SERVICE COMMISSION OF WISCONSIN**

P.O. Box 7854
Madison, WI 53707-7854
(608) 266-3766

This form is required under Wis. Stat. § 196.07. Failure to file the form by the statutory filing date can result in the imposition of a penalty under Wis. Stat. § 196.66. The penalty which can be imposed by this section of the statutes is a forfeiture of not less than \$25 nor more than \$5,000 for each violation. Each day subsequent to the filing date constitutes a separate and distinct violation. The filed form is available to the public and personally identifiable information may be used for purposes other than those related to public utility regulation.

THIS FILING IS (CHECK ONE BOX FOR EACH ITEM)

Item 1: ☒ An Initial (Original) Submission OR ☐ Resubmission No. _____

Item 2: ☐ An Original Signed Form OR ☐ Conformed Copy

Form Approved
OMB No. 1902-0021
(Expires 11/30/2001)

FERC Form No. 1: ANNUAL REPORT OF MAJOR ELECTRIC UTILITIES, LICENSEES AND OTHERS

This report is mandatory under the Federal Power Act, Sections 3, 4(a), 304 and 309, and 18 CFR 141.1. Failure to report may result in criminal fines, civil penalties and other sanctions as provided by law. The Federal Energy Regulatory Commission does not consider this report to be of a confidential nature.

Exact Legal Name of Respondent (Company)

Consolidated Water Power Company

Year of Report

Dec. 31, 2001

**INSTRUCTIONS FOR FILING THE
FERC FORM NO. 1**

GENERAL INFORMATION

I. Purpose

This form is a regulatory support requirement (18 CFR 141.1). It is designed to collect financial and operational information from major electric utilities, Licensees and others subject to the jurisdiction of the Federal Energy Regulatory Commission. This report is also secondarily considered to be a nonconfidential public use form supporting a statistical publication (Financial Statistics of Selected Electric Utilities), published by the Energy Information Administration.

II. Who Must Submit

Each major electric utility, licensee, or other, as classified in the Commission's Uniform System of Accounts Prescribed for Public Utilities and Licensees Subject to the Provisions of The Federal Power Act (18 CFR 101), must submit this form.

Note: Major means having, in each of the three previous calendar years, sales or transmission service that exceeds

one of the following:

- (1) one million megawatt hours of total annual sales,
- (2) 100 megawatt hours of annual sales for resale,
- (3) 500 megawatt hours of annual power exchanges delivered, or
- (4) 500 megawatt hours of annual wheeling for others (deliveries plus Losses).

III. What and Where to Submit

(a) Submit this form electronically through the Form 1 Submission Software and an original and six (6) conformed paper copies, properly filed in and attested, to:

Office of the Secretary
Federal Energy Regulatory Commission
888 First Street, NE.
Room 1A
Washington, DC 20426

Retain one copy of this report for your files.

Include with the original and each conformed paper copy of this form the subscription statement required by 18 C.F.R. 385.2011(c)(5). Paragraph (c)(5) of 18 C.F.R. 385.2011 requires each respondent submitting data electronically to file a subscription stating that the paper copies contain the same information as the electronic filing, that the signer knows the contents of the paper copies and electronic filing, and that the contents as stated in the copies and electronic filing are true to the best knowledge and belief of the signer.

(b) Submit, immediately upon publication, four (4) copies of the Latest annual report to stockholders and any annual financial or statistical report regularly prepared and distributed to bondholders, security analysts, or industry associations. (Do not include monthly and quarterly reports. Indicate by checking the appropriate box on Page 4, List of Schedules, if the reports to stockholders will be submitted or if no annual report to stockholders is prepared.) Mail these reports to:

Chief Accountant
Federal Energy Regulatory Commission
888 First Street, NE.
Washington, DC 20426

(c) For the CPA certification, submit with the original submission, or within 30 days after the filing date for this form, a Letter or report (not applicable to respondents classified as Class C or Class D prior to January 1, 1984):

(i) Attesting to the conformity, in all material aspects, of the below listed (schedules and) pages with the Commission's applicable Uniform Systems of Accounts (including applicable notes relating thereto and the Chief Accountant's published accounting releases), and

(ii) Signed by independent certified public accountants or an independent Licensed public accountant certified or Licensed by a regulatory authority of a State or other political subdivision of the U. S. (See 18 CFR 41.10-41.12 for specific qualifications.)

III. What and Where to Submit (Continued)

(c) Continued

Schedules	Reference Pages
Comparative Balance Sheet	110-113
Statement of Income	114-117
Statement of Retained Earnings	118-119
Statement of Cash Flows	120-121
Notes to Financial Statements	122-123

When accompanying this form, insert the Letter or report immediately following the cover sheet. When submitting after the filing date for this form, send the letter or report to the office of the Secretary at the address indicated at III (a).

Use the following format for the Letter or report unless unusual circumstances or conditions, explained in the Letter or report, demand that it be varied. Insert parenthetical phrases only when exceptions are reported.

In connection with our regular examination of the financial statements of _____ for the year ended on which we have reported separately under date of _____. We have also reviewed schedules _____ of FERC Form No. 1 for the year filed with the Federal Energy Regulatory Commission, for conformity in all material respects with the requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases. Our review for this purpose included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

Based on our review, in our opinion the accompanying schedules identified in the preceding paragraph (except as noted below) conform in all material respects with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases.

State in the letter or report, which, if any, of the pages above do not conform to the Commission's requirements. Describe the discrepancies that exist.

(d) Federal, State and Local Governments and other authorized users may obtain additional blank copies to meet their requirements free of charge from:

Public Reference and Files Maintenance Branch
Federal Energy Regulatory Commission
888 First Street, NE. Room 2A ES-1
Washington, DC 20426
(202) 208-2474

IV. When to Submit

Submit this report form on or before April 30th of the year following the year covered by this report.

V. Where to Send Comments on Public Reporting Burden

The public reporting burden for this collection of information is estimated to average 1,217 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any aspect of this collection of information, including suggestions for reducing this burden, to the Federal Energy Regulatory Commission, 888 First Street N.E., Washington, DC 20426 (Attention: Mr. Michael Miller, CI-1); and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503 (Attention: Desk Officer for the Federal Energy Regulatory Commission). No person shall be subject to any penalty if this collection of information does not display a valid control number. (44 U.S.C. 3512(a)).

GENERAL INSTRUCTIONS

- I. Prepare this report in conformity with the Uniform System of Accounts (18 CFR 101) (U.S. of A.). Interpret all accounting words and phrases in accordance with the U. S. of A.
- II. Enter in whole numbers (dollars or MWH) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important. The truncating of cents is allowed except on the four basic financial statements where rounding is required.) The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting year, and use for statement of income accounts the current year's amounts.
- III. Complete each question fully and accurately, even if it has been answered in a previous annual report. Enter the word "None" where it truly and completely states the fact.
- IV. For any page(s) that is not applicable to the respondent, omit the page(s) and enter "NA," "NONE," or "Not Applicable" in column (d) on the List of Schedules, pages 2, 3, and 4.
- V. Enter the month, day, and year for all dates. Use customary abbreviations. The "Date of Report" included in the header of each page is to be completed only for resubmissions (see VII. below). The date of the resubmission must be reported in the header for all form pages, whether or not they are changed from the previous filing.
- VI. Generally, except for certain schedules, all numbers, whether they are expected to be debits or credits, must be reported as positive. Numbers having a sign that is different from the expected sign must be reported by enclosing the numbers in parentheses.
- VII. For any resubmissions, submit the electronic filing using the Form 1 Submission Software and an original and six (6) conformed paper copies of the entire form, as well as the appropriate number of copies of the subscription statement indicated at instruction III (a). Resubmissions must be numbered sequentially on the cover page of the paper copies of the form. In addition, the cover page of each paper copy must indicate that the filing is a resubmission. Send the resubmissions to the address indicated at instruction III (a).
- VIII. Do not make references to reports of previous years or to other reports in lieu of required entries, except as specifically authorized.
- IX. Wherever (schedule) pages refer to figures from a previous year, the figures reported must be based upon those shown by the annual report of the previous year, or an appropriate explanation given as to why the different figures were used.

DEFINITIONS

- I. Commission Authorization (Comm. Auth.) -- The authorization of the Federal Energy Regulatory Commission, or any other Commission. Name the commission whose authorization was obtained and give date of the authorization.
- II. Respondent -- The person, corporation, licensee, agency, authority, or other Legal entity or instrumentality in whose behalf the report is made.

Federal Power Act, 16 U.S.C. 791a-825r)

"Sec. 3. The words defined in this section shall have the following meanings for purposes of this Act, to wit:
 ... (3) "Corporation" means any corporation, joint-stock company, partnership, association, business trust, organized group of persons, whether incorporated or not, or a receiver or receivers, trustee or trustees of any of the foregoing. It shall not include 'municipalities, as hereinafter defined;

(4) "Person" means an individual or a corporation;

(5) "Licensee" means any person, State, or municipality Licensed under the provisions of section 4 of this Act, and any assignee or successor in interest thereof;

(7) "Municipality" means a city, county, irrigation district, drainage district, or other political subdivision or agency of a State competent under the Laws thereof to carry on the business of developing, transmitting, unitizing, or distributing power;..."

(11) "Project" means a complete unit of improvement or development, consisting of a power house, all water conduits, all dams and appurtenant works and structures (including navigation structures) which are a part of said unit, and all storage, diverting, or forebay reservoirs directly connected therewith, the primary line or Lines transmitting power therefrom to the point of junction with the distribution system or with the interconnected primary transmission system, all miscellaneous structures used and useful in connection with said unit or any part thereof, and all water rights, rights-of-way, ditches, dams, reservoirs, Lands, or interest in Lands the use and occupancy of which are necessary or appropriate in the maintenance and operation of such unit;

"Sec. 4. The Commission is hereby authorized and empowered:

(a) To make investigations and to collect and record data concerning the utilization of the water 'resources of any region to be developed, the water-power industry and its relation to other industries and to interstate or foreign commerce, and concerning the location, capacity, development costs, and relation to markets of power sites; ... to the extent the Commission may deem necessary or useful for the purposes of this Act."

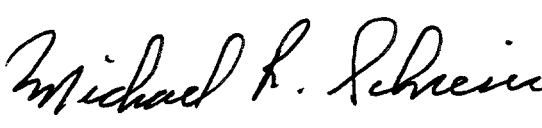

"Sec. 304. (a) Every Licensee and every public utility shall file with the Commission such annual and other periodic or special reports as the Commission may by rules and regulations or other prescribe as necessary or appropriate to assist the Commission in the proper administration of this Act. The Commission may prescribe the manner and form in which such reports shall be made, and require from such persons specific answers to all questions upon which the Commission may need information. The Commission may require that such reports shall include, among other things, full information as to assets and Liabilities, capitalization, net investment, and reduction thereof, gross receipts, interest due and paid, depreciation, and other reserves, cost of project and other facilities, cost of maintenance and operation of the project and other facilities, cost of renewals and replacement of the project works and other facilities, depreciation, generation, transmission, distribution, delivery, use, and sale of electric energy. The Commission may require any such person to make adequate provision for currently determining such costs and other facts. Such reports shall be made under oath unless the Commission otherwise specifies."

"Sec. 309. The Commission shall have power to perform any and all acts, and to prescribe, issue, make, and rescind such orders, rules and regulations as it may find necessary or appropriate to carry out the provisions of this Act. Among other things, such rules and regulations may define accounting, technical, and trade terms used in this Act; and may prescribe the form or forms of all statements, declarations, applications, and reports to be filed with the Commission, the information which they shall contain, and the time within which they shall be filed..."

----- General Penalties -----

"Sec. 315. (a) Any licensee or public utility which willfully fails, within the time prescribed by the Commission, to comply with any order of the Commission, to file any report required under this Act or any rule or regulation of the Commission thereunder, to submit any information of document required by the Commission in the course of an investigation conducted under this Act ... shall forfeit to the United States an amount not exceeding \$1,000 to be fixed by the Commission after notice and opportunity for hearing..."

IMPORTANT CHANGES DURING THE YEAR			
<p>Give particulars (details) concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquiries. Each inquiry should be answered. Enter "none," "not applicable," or "NA" where applicable. If information which answers an inquiry is given elsewhere in the report, make a reference to the schedule in which it appears.</p> <p>1. Changes in and important additions to franchise rights: Describe the actual consideration given therefore and state from whom the franchise rights were acquired. If acquired without the payment of consideration, state that fact.</p> <p>2. Acquisition of ownership in other companies by reorganization, merger, or consolidation with other companies: Give names of companies involved, particulars concerning the transactions, name of the Commission authorizing the transaction, and reference to Commission authorization.</p> <p>3. Purchase or sale of an operating unit or system: Give a brief description of the property, and of the transactions relating thereto, and reference to Commission authorization, if any was required. Give date journal entries called for by the Uniform System of Accounts were submitted to the Commission.</p> <p>4. Important leaseholds (other than leaseholds for natural gas lands) that have been acquired or given, assigned or surrendered: Give effective dates, lengths of terms, names of parties, rents, and other condition. State name of Commission authorizing lease and give reference to such authorization.</p> <p>5. Important extension or reduction of transmission or distribution system: State territory added or relinquished and date operations began or ceased and give reference to Commission authorization, if any was required. State also the approximate number of customers added or lost and approximate annual revenues of each class of service. Each natural gas company must also state major new continuing sources of gas made available to it from purchases, development, purchase contract or otherwise, giving location and approximate total gas volumes available, period of contracts, and other parties to any such arrangements, etc.</p> <p>6. Obligations incurred as a result of issuance of securities or assumption of liabilities or guarantees including issuance of short-term debt and commercial paper having a maturity of one year or less. Give reference to FERC or State Commission authorization, as appropriate, and the amount of obligation or guarantee.</p> <p>7. Changes in articles of incorporation or amendments to charter: Explain the nature and purpose of such changes or amendments.</p> <p>8. State the estimated annual effect and nature of any important wage scale changes during the year.</p> <p>9. State briefly the status of any materially important legal proceedings pending at the end of the year, and the results of any such proceedings culminated during the year.</p> <p>10. Describe briefly any materially important transactions of the respondent not disclosed elsewhere in this report in which an officer, director, security holder reported on Page 106, voting trustee, associated company or known associate of any of these persons was a party or in which any such person had a material interest.</p> <p>11. (Reserved.)</p> <p>12. If the important changes during the year relating to the respondent company appearing in the annual report to stockholders are applicable in every respect and furnish the data required by Instructions 1 to 11 above, such notes may be included on this page.</p>			
<p>PAGE 108 INTENTIONALLY LEFT BLANK SEE PAGE 109 FOR REQUIRED INFORMATION.</p>

Consolidated Water Power Company	(1) <input checked="" type="checkbox"/> An Original (2) <input type="checkbox"/> A Resubmission	04/01/2002	Dec 31, 2001
IMPORTANT CHANGES DURING THE YEAR (Continued)			

The December 31, 2000 financial statements have been restated to reflect the correction of an error in the calculation of the provision for income taxes for 2000, related to the Company's sale of its interest in Wisconsin River Power Company during 2000.

Please refer to the Notes to Financial Statements for further details.

STATEMENT OF INCOME FOR THE YEAR

1. Report amounts for accounts 412 and 413, Revenue and Expenses from Utility Plant Leased to Others, in another Utility column (i, k, m, o) in a similar manner to a utility department. Spread the amount(s) over Lines 02 thru 24 as appropriate. Include these amounts in columns (c) and (d) totals.
2. Report amounts in account 414, Other Utility Operating income, in the same manner as accounts 412 and 413 above.
3. Report data for lines 7,9, and 10 for Natural Gas companies using accounts 404.1, 404.2, 404.3, 407.1 and 407.2.
4. Use pages 122-123 for important notes regarding the statement of income or any account thereof.
5. Give concise explanations concerning unsettled rate proceedings where a contingency exists such that refunds of a material amount may need to be made to the utility's customers or which may result in a material refund to the utility with respect to power or gas purchases. State for each year affected the gross revenues or costs to which the contingency relates and the tax effects together with an explanation of the major factors which affect the rights of the utility to retain such revenues or recover amounts paid with respect to power and gas purchases.
6. Give concise explanations concerning significant amounts of any refunds made or received during the year

STATEMENT OF INCOME FOR THE YEAR (Continued)

resulting from settlement of any rate proceeding affecting revenues received or costs incurred for power or gas purchases, and a summary of the adjustments made to balance sheet, income, and expense accounts.

7. If any notes appearing in the report to stockholders are applicable to this Statement of Income, such notes may be included on pages 122-123.

B. Enter on pages 122-123 a concise explanation of only those changes in accounting methods made during the year which had an effect on net income, including the basis of allocations and apportionments from those used in the preceding year. Also give the approximate dollar effect of such changes.

9. Explain in a footnote if the previous year's figures are different from that reported in prior reports.

10. If the columns are insufficient for reporting additional utility departments, supply the appropriate account titles, lines 2 to 23, and report the information in the blank space on pages 122-123 or in a footnote.

STATEMENT OF RETAINED EARNINGS FOR THE YEAR

- Report all changes in appropriated retained earnings, unappropriated retained earnings, and unappropriated undistributed subsidiary earnings for the year.
- Each credit and debit during the year should be identified as to the retained earnings account in which recorded (Accounts 433, 436 - 439 inclusive). Show the contra primary account affected in column (b)
- State the purpose and amount of each reservation or appropriation of retained earnings.
- List first account 439, Adjustments to Retained Earnings, reflecting adjustments to the opening balance of retained earnings. Follow by credit, then debit items in that order.
- Show dividends for each class and series of capital stock.
- Show separately the State and Federal income tax effect of items shown in account 439, Adjustments to Retained Earnings.
- Explain in a footnote the basis for determining the amount reserved or appropriated. If such reservation or appropriation is to be recurrent, state the number and annual amounts to be reserved or appropriated as well as the totals eventually to be accumulated.
- If any notes appearing in the report to stockholders are applicable to this statement, include them on pages 122-123.

STATEMENT OF CASH FLOWS

1. If the notes to the cash flow statement in the respondents annual stockholders report are applicable to this statement, such notes should be included in page 122-123. Information about non-cash investing and financing activities should be provided on Page 122-123. Provide also on pages 122-123 a reconciliation between "Cash and Cash Equivalents at End of Year" with related amounts on the balance sheet.
2. Under "Other" specify significant amounts and group others.
3. Operating Activities - Other: Include gains and losses pertaining to operating activities only. Gains and losses pertaining to investing and financing activities should be reported in those activities. Show on Page 122-123 the amount of interest paid (net of amounts capitalized) and income taxes paid.

Line No.	Description (See Instruction No. 5 for Explanation of Codes) (a)	Amounts (b)

NOTES TO FINANCIAL STATEMENTS

1. Use the space below for important notes regarding the Balance Sheet, Statement of Income for the year, Statement of Retained Earnings for the year, and Statement of Cash Flows, or any account thereof. Classify the notes according to each basic statement, providing a subheading for each statement except where a note is applicable to more than one statement.
2. Furnish particulars (details) as to any significant contingent assets or liabilities existing at end of year, including a brief explanation of any action initiated by the Internal Revenue Service involving possible assessment of additional income taxes of material amount, or of a claim for refund of income taxes of a material amount initiated by the utility. Give also a brief explanation of any dividends in arrears on cumulative preferred stock.
3. For Account 116, Utility Plant Adjustments, explain the origin of such amount, debits and credits during the year, and plan of disposition contemplated, giving references to Commission orders or other authorizations respecting classification of amounts as plant adjustments and requirements as to disposition thereof.
4. Where Accounts 189, Unamortized Loss on Reacquired Debt, and 257, Unamortized Gain on Reacquired Debt, are not used, give an explanation, providing the rate treatment given these items. See General Instruction 17 of the Uniform System of Accounts.
5. Give a concise explanation of any retained earnings restrictions and state the amount of retained earnings affected by such restrictions.
6. If the notes to financial statements relating to the respondent company appearing in the annual report to the stockholders are applicable and furnish the data required by instructions above and on pages 114-121, such notes may be included herein.

PAGE 122 INTENTIONALLY LEFT BLANK
SEE PAGE 123 FOR REQUIRED INFORMATION.

Consolidated Water Power Company

Notes to Financial Statements

December 31, 2001 and 2000

(1) Acquisition of Parent-

On August 31, 2000, Stora Enso Acquisition Corp., a wholly owned subsidiary of Stora Enso Oyj, Helsinki, Finland, acquired all of the outstanding shares of Consolidated Papers, Inc. ("CPI"), the parent of Consolidated Water Power Company (the "Company") for \$4.0 billion, including related costs and expenses. All of the shares of CPI were acquired and retired. Effective with the closing of the acquisition, Stora Enso Acquisition Corp. has changed its name to Stora Enso North America Corp. ("SENA").

The total purchase price of the acquisition was approximately \$4.0 billion and consisted of the following:

- \$1.950 billion comprised of 167,367,577 Stora Enso Oyj American depository shares at a value of \$11.65 per share.
- \$2.034 billion in cash.
- \$.051 billion of Stora Enso Oyj options issued and other acquisition expenses.

Of the total purchase price, \$38.3 million was allocated to the net assets of the Company based on their estimated fair values at August 31, 2000.

The Company has accounted for this acquisition as a purchase whereby the \$38.3 million allocated purchase price has been "pushed down" to the financial statements of the Company. The purchase price allocated to the historical retained earnings of the Company at August 31, 2000 eliminated the retained earnings on the Company's Balance Sheets. The purchase price allocation resulted in changes to the historical carrying amounts as follows:

Net Book Value at August 31, 2000	\$28,977,931
Fair Value Adjustments:	
Plant and Equipment	15,892,218
Land	700,000
Deferred Taxes	(7,228,477)
Total Purchase Price Allocated	<u>\$38,341,672</u>

The increase in the carrying amount of the plant and equipment balances is being depreciated over approximately a twenty-year period.

As a result of changes to the Company's basis of accounting at August 31, 2000, the statement of income for the year ended December 31, 2000 reflects eight months of operating results based on the predecessor carrying amounts and four months of operating results based on "push down" accounting.

(2) Nature of Operations-

The Company is a wholly owned subsidiary of SENA. The Company's business is the supply and distribution of retail electric power to SENA and a small block of other retail customers. The Company owns and operates hydroelectric power generation facilities with a rated capacity of 33.33 megawatts at five dam sites on the Wisconsin River. The Company procures purchased power in the competitive wholesale market for the majority of its power supply needs. In 2001 and 2000, most of this power was purchased using short-term contracts.

(3) Restatement-

The December 31, 2000 financial statements have been restated to reflect the correction of an error in the calculation of the provision for income taxes for 2000, related to the Company's sale of its interest in Wisconsin River Power Company during 2000. The restatement impacted previously reported amounts in the following accounts as of December 31, 2001:

	Previously Reported Amount	Restatement	Restated Amount
Income Tax Provision:			
Federal—Nonoperating	\$1,906,150	\$(281,994)	\$1,624,156
State—Nonoperating	652,476	(41,372)	611,104
Deferred	(2,473,552)	657,959	(1,815,593)
Net Income	858,236	(334,593)	523,643
Taxes Accrued—Federal	1,857,466	(281,994)	1,575,472
Taxes Accrued—State	500,746	(41,372)	459,374
Retained Earnings (Deficit)	253,582	(334,593)	(81,011)

(4) Sale of Interest in Wisconsin River Power Company-

Effective December 31, 2000, the Company sold its 33.8% interest, consisting of 31,600 shares of capital stock of Wisconsin River Power Company (WRP), to Wisconsin Public Service Corporation ("WPS"), also a joint owner of WRP. The Company received \$4.9 million cash in exchange for its interest in WRP. As the \$4.9 million payment equaled the carrying amount of the WRP investment, the Company realized no gain or loss on the sale of its interest in WRP. Also, an additional portion of the sales price is payable to the Company over a period of 12 years from the date of the closing (the "Real Estate Period"). Payments will be made to the Company from WPS 30 days after the close of each calendar quarter in an amount equal to 33.8% of the net proceeds realized by WRP in respect of sales of real estate and wood products during the Real Estate Period. The sales price payable based on WRP activities during the Real Estate Period has been accounted for as contingent consideration. The Company expects to record any amounts received as income in the period WRP has sales of real estate or wood products. During 2001 the Company received \$420,000 from WPS related to sales of real estate and wood products.

Effective December 31, 2001, WPS sold one-half of the WRP shares it had purchased from the Company to Wisconsin Power and Light Company ("WPL"). As a result, beginning in 2002, the payments from sales of real estate and wood products will be made equally by WPS and WPL.

Prior to December 31, 2000, the Company provided certain management, administrative and accounting services to WRP. Amounts received for such services during 2000 were \$718,560. Effective December 31, 2000 WPS assumed responsibility for the operation of WRP. In connection therewith, WRP, along with WPL, entered into an Operating Agreement (the "Operating Agreement") with WPS whereby WPS would provide certain management, administrative and accounting services to WRP. The Operating Agreement became effective upon termination of the Interim Services Agreement (see below).

The Company entered into an Interim Services Agreement (the "Interim Services Agreement") with WPL, WPS and WRP whereby the Company would provide certain management services to WRP for a period of up to one year from the effective date. Under the Interim Services Agreement, WRP reimbursed the Company for costs incurred plus a monthly administrative fee of \$60,000. Amounts received under the Interim Services Agreement were \$249,000 and \$0 in 2001 and 2000, respectively.

(5) Summary of Significant Accounting Policies-

The significant accounting policies applicable to the Company's business are described below:

(a) Use of Estimates-

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(b) Property, Plant and Equipment-

Utility plant is stated at its historical cost of construction (see Note 1 for a discussion of the increase in the carrying value of Property, Plant and Equipment that resulted from the acquisition of the Company's parent in 2000). Ordinary utility plant retirements, including removal costs less salvage value, are charged to accumulated depreciation upon removal from utility plant accounts and no gain or loss is recognized.

(c) Depreciation-

Depreciation rates are based on estimated lives, removal costs, and salvage value of property per depreciation studies filed with the Public Service Commission of Wisconsin (PSCW). Rates in effect for 2001 and 2000 reflect composite rates of 3.19% and 3.18% per the last approved study.

(d) Relicensing Costs-

The Company, as authorized by the rate order issued by the PSCW, expensed all relicensing costs for its DuBay, Wisconsin Rapids, and Wisconsin River projects and is capitalizing such costs for its Biron and Stevens Point projects for amortization over the life of the associated license.

(e) Revenues-

Revenues are recorded as billings are rendered based on electric power usage and tariffs filed with the PSCW. The tariffs include rates for selling power to SENA as well as rates for all other retail sales. The Company's largest customer (SENA, see Note 2) is billed at month-end, while the remaining customers are billed around the 20th of the month. The tariffs provide for flow through of actual costs of purchased power in the amounts billed to customers via the Power Cost Adjustment Clause.

(f) Regulatory Assets and Liabilities-

The Company is subject to the provisions of Statement of Financial Accounting Standards (SFAS) No. 71, "Accounting for the Effects of Certain Types of Regulation." Regulatory assets represent probable future revenue associated with certain incurred costs which will be recovered from customers through the ratemaking process. Regulatory liabilities represent costs previously collected that are refundable in future customer rates.

The following regulatory assets and liabilities were reflected in the Company's Balance Sheets as of December 31:

	2001	2000
Regulatory Asset-		
Tax Effects of Depreciation	<u>\$123,284</u>	<u>\$134,492</u>
Regulatory Liabilities-		
Future Revenue Impact of Investment Tax		
Credit Amortization	\$262,289	\$278,633
Derivative Market Value Adjustment		
(See Note 5(g))	<u>240,115</u>	<u>-</u>
	<u>\$502,404</u>	<u>\$278,633</u>

(g) Derivative Instruments-

The Company enters into certain power purchase contracts that meet the definition of a derivative under SFAS 133. The Company uses such derivative instruments to hedge exposures to fluctuations in electric power prices. The Company does not use such instruments for speculative purposes. In accordance with SFAS 133, as amended by SFAS 138, "Accounting for Certain Derivative Instruments and Certain Hedging Activities – an Amendment of SFAS 133," the fair value of all derivatives is recorded as assets (account 186) or liabilities (account 253) on the Balance Sheets. Changes in the fair value of these instruments are recorded as regulatory assets (account 182.3)/liabilities (account 254) because all amounts paid under the contracts are billed to customers under the Power Cost Adjustment Clause.

(6) Related Party Transactions-

During 2000, the Company owned 33.8% of the outstanding capital stock of WRP and purchased one-third of WRP's electric generation. Such purchases totaled \$1,725,042 in 2000.

WPS is a joint owner of WRP. The Company purchased \$17,343,654 of power from WPS in 2000.

WPL is a joint owner of WRP. The Company purchased \$2,431,323 of power from WPL in 2000.

(7) Intercompany Account-

The Company maintains a current intercompany account with SENA which, among other transactions, reflects the sale of electric power (\$56,797,183 and \$51,262,196 in 2001 and 2000, respectively) and the purchase of management, administrative, and accounting services (\$523,260 and \$393,000 in 2001 and 2000, respectively). In addition, all of the Company's cash transactions, including receipts for utility service rendered to other customers and disbursements for property additions, are recorded in the cash accounts for SENA with appropriate recognition in the Company's intercompany account. The balance of this intercompany account represents advances to and from SENA. This account is non-interest bearing.

(8) Federal Energy Regulatory Commission Regulation-

The Company is exempt from Federal Energy Regulatory Commission (FERC) jurisdiction under Part II of the Federal Power Act through a special rule relating to small power producers. Substantially all sales of electricity are retail sales. The Company's retail rates are regulated by the PSCW. The Company received FERC approval in 1998 to sell wholesale power at market rates. Wholesale

power sales under this market rate tariff were \$968,231 in 2001. These wholesale power sales were effectively all not through the Company's physical system, but utilized a contracted transmission path as an accommodation to the ultimate customer. No material wholesale power sales occurred during 2000.

(9) Income Taxes-

The Company files a consolidated federal tax return with its parent company, SENA, but in accordance with state law, files a separate Wisconsin tax return.

The Company's effective tax rate differs from the U.S. statutory rate due primarily to state income taxes and the dividends received deduction, and in 2000, an adjustment to reduce the deferred tax liability related to the Company's investment in WRP. The temporary difference related to the investment in WRP became taxable at the statutory tax rate in 2000. The Company had previously expected that a significant portion of the temporary difference would reverse in the form of dividends (which are taxed at a lower rate due to the dividends received deduction) rather than in the form of a sale of the investment.

Deferred taxes are determined based on the estimated future tax effects of differences between the financial statement and tax basis of assets and liabilities given the provisions of the enacted tax laws. The net deferred tax liability at December 31 is comprised of the following items:

	<u>2001</u>	<u>2000</u>
Depreciation	\$(8,922,318)	\$(9,354,242)
Deferred Investment Tax Credit	263,087	280,234
Equity Investments	1,085,301	1,234,934
FERC Relicensing Costs	474,311	553,429
Other	26,252	25,982
Total Deferred Taxes	<u>\$(7,073,367)</u>	<u>\$(7,259,663)</u>

(10) Statements of Cash Flows-

Supplemental disclosure of cash flows information includes income taxes paid of \$2,267,792 and \$256,093 for 2001 and 2000, respectively.

(11) Commitments and Contingencies-

The Company's 2002 capital budget (without consideration of the Biron gate and dam rehabilitation project discussed below) is approximately \$1,168,000. Larger, specific projects planned include the SCADA system replacement (\$556,000), annual distribution requirements (\$160,000), and rebuilding one mile of the DuBay line (\$100,000).

The Biron gate and dam rehabilitation project budget was set at \$1,300,000 during 2001. Expenditures through December 31, 2001 were \$2,400. Future expenditures of \$1,297,600 are anticipated in 2002.

To ensure an adequate supply of power, the Company has entered into purchased power contracts with several regional suppliers through December 31, 2012. Some of the contracts include a capacity or take-or-pay provisions, under which payments are required even if no quantities are purchased. The energy charge is based on actual volumes purchased; the rate varies with the supplier's actual fuel costs. In November 2001, the Company entered into a contract for the purchase of up to 53

megawatts of electric capacity and energy with a contract period from November 1, 2001 to May 31, 2011. This purchased power contract meets the definition of a derivative under SFAS 133 (see Note 5(g)). This contract was reported at its fair market value at December 31, 2001 resulting in an asset of \$240,115. Payment obligations per the contracts total approximately \$61 million through December 31, 2011, which annually are estimated to be \$7 million in 2002 and an average of \$6 million for the years 2003 through 2011.

NOTES TO FINANCIAL STATEMENTS (Continued)			

Consolidated Water Power Company

Notes to Financial Statements December 31, 2001 and 2000

(1) Acquisition of Parent-

On August 31, 2000, Stora Enso Acquisition Corp., a wholly owned subsidiary of Stora Enso Oyj, Helsinki, Finland, acquired all of the outstanding shares of Consolidated Papers, Inc. ("CPI"), the parent of Consolidated Water Power Company (the "Company") for \$4.0 billion, including related costs and expenses. All of the shares of CPI were acquired and retired. Effective with the closing of the acquisition, Stora Enso Acquisition Corp. has changed its name to Stora Enso North America Corp. ("SENA").

The total purchase price of the acquisition was approximately \$4.0 billion and consisted of the following:

- \$1.950 billion comprised of 167,367,577 Stora Enso Oyj American depository shares at a value of \$11.65 per share.
- \$2.034 billion in cash.
- \$.051 billion of Stora Enso Oyj options issued and other acquisition expenses.

Of the total purchase price, \$38.3 million was allocated to the net assets of the Company based on their estimated fair values at August 31, 2000.

The Company has accounted for this acquisition as a purchase whereby the \$38.3 million allocated purchase price has been "pushed down" to the financial statements of the Company. The purchase price allocated to the historical retained earnings of the Company at August 31, 2000 eliminated the retained earnings on the Company's Balance Sheets. The purchase price allocation resulted in changes to the historical carrying amounts as follows:

Net Book Value at August 31, 2000	\$28,977,931
Fair Value Adjustments:	
Plant and Equipment	15,892,218
Land	700,000
Deferred Taxes	(7,228,477)
Total Purchase Price Allocated	<u>\$38,341,672</u>

The increase in the carrying amount of the plant and equipment balances is being depreciated over approximately a twenty-year period.

As a result of changes to the Company's basis of accounting at August 31, 2000, the statement of income for the year ended December 31, 2000 reflects eight months of operating results based on the predecessor carrying amounts and four months of operating results based on "push down" accounting.

(2) Nature of Operations-

The Company is a wholly owned subsidiary of SENNA. The Company's business is the supply and distribution of retail electric power to SENNA and a small block of other retail customers. The Company owns and operates hydroelectric power generation facilities with a rated capacity of 33.33 megawatts at five dam sites on the Wisconsin River. The Company procures purchased power in the competitive wholesale market for the majority of its power supply needs.

Name of Respondent	This Report is:	Date of Report (Mo, Da, Yr)	Year of Report
Consolidated Water Power Company	(1) <input checked="" type="checkbox"/> An Original (2) <input type="checkbox"/> A Resubmission	04/01/2002	Dec 31, 2001
NOTES TO FINANCIAL STATEMENTS (Continued)			

In 2001 and 2000, most of this power was purchased using short-term contracts.

(3) Restatement-

The December 31, 2000 financial statements have been restated to reflect the correction of an error in the calculation of the provision for income taxes for 2000, related to the Company's sale of its interest in Wisconsin River Power Company during 2000. The restatement impacted previously reported amounts in the following accounts as of December 31, 2001:

	Previously Reported Amount	Restatement	Restated Amount
Income Tax Provision:			
Federal—Nonoperating	\$1,906,150	\$(281,994)	\$1,624,156
State—Nonoperating	652,476	(41,372)	611,104
Deferred	(2,473,552)	657,959	(1,815,593)
Net Income	858,236	(334,593)	523,643
Taxes Accrued—Federal	1,857,466	(281,994)	1,575,472
Taxes Accrued—State	500,746	(41,372)	459,374
Retained Earnings (Deficit)	253,582	(334,593)	(81,011)

(4) Sale of Interest in Wisconsin River Power Company-

Effective December 31, 2000, the Company sold its 33.8% interest, consisting of 31,600 shares of capital stock of Wisconsin River Power Company (WRP), to Wisconsin Public Service Corporation ("WPS"), also a joint owner of WRP. The Company received \$4.9 million cash in exchange for its interest in WRP. As the \$4.9 million payment equaled the carrying amount of the WRP investment, the Company realized no gain or loss on the sale of its interest in WRP. Also, an additional portion of the sales price is payable to the Company over a period of 12 years from the date of the closing (the "Real Estate Period"). Payments will be made to the Company from WPS 30 days after the close of each calendar quarter in an amount equal to 33.8% of the net proceeds realized by WRP in respect of sales of real estate and wood products during the Real Estate Period. The sales price payable based on WRP activities during the Real Estate Period has been accounted for as contingent consideration. The Company expects to record any amounts received as income in the period WRP has sales of real estate or wood products. During 2001 the Company received \$420,000 from WPS related to sales of real estate and wood products.

Effective December 31, 2001, WPS sold one-half of the WRP shares it had purchased from the Company to Wisconsin Power and Light Company ("WPL"). As a result, beginning in 2002, the payments from sales of real estate and wood products will be made equally by WPS and WPL.

Prior to December 31, 2000, the Company provided certain management, administrative and accounting services to WRP. Amounts received for such services during 2000 were \$718,560. Effective December 31, 2000 WPS assumed responsibility for the operation of WRP. In connection therewith, WRP, along with WPL, entered into an Operating Agreement (the "Operating Agreement") with WPS whereby WPS would provide certain management, administrative and accounting services to WRP. The Operating Agreement became effective upon termination of the Interim Services Agreement (see below).

The Company entered into an Interim Services Agreement (the "Interim Services Agreement") with WPL, WPS and WRP whereby the Company would provide certain management services to WRP for a period of up to one year from the effective date. Under the Interim Services Agreement, WRP reimbursed the Company for costs incurred plus a monthly administrative fee of \$60,000. Amounts received under the Interim Services Agreement were \$249,000 and \$0 in 2001 and 2000, respectively.

Name of Respondent	This Report is:	Date of Report (Mo, Da, Yr)	Year of Report
Consolidated Water Power Company	(1) <input checked="" type="checkbox"/> An Original (2) <input type="checkbox"/> A Resubmission	04/01/2002	Dec 31, 2001
NOTES TO FINANCIAL STATEMENTS (Continued)			

(5) Summary of Significant Accounting Policies-

The significant accounting policies applicable to the Company's business are described below:

(a) Use of Estimates-

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(b) Property, Plant and Equipment-

Utility plant is stated at its historical cost of construction (see Note 1 for a discussion of the increase in the carrying value of Property, Plant and Equipment that resulted from the acquisition of the Company's parent in 2000). Ordinary utility plant retirements, including removal costs less salvage value, are charged to accumulated depreciation upon removal from utility plant accounts and no gain or loss is recognized.

(c) Depreciation-

Depreciation rates are based on estimated lives, removal costs, and salvage value of property per depreciation studies filed with the Public Service Commission of Wisconsin (PSCW). Rates in effect for 2001 and 2000 reflect composite rates of 3.19% and 3.18% per the last approved study.

(d) Relicensing Costs-

The Company, as authorized by the rate order issued by the PSCW, expensed all relicensing costs for its DuBay, Wisconsin Rapids, and Wisconsin River projects and is capitalizing such costs for its Biron and Stevens Point projects for amortization over the life of the associated license.

(e) Revenues-

Revenues are recorded as billings are rendered based on electric power usage and tariffs filed with the PSCW. The tariffs include rates for selling power to SENA as well as rates for all other retail sales. The Company's largest customer (SENA, see Note 2) is billed at month-end, while the remaining customers are billed around the 20th of the month. The tariffs provide for flow through of actual costs of purchased power in the amounts billed to customers via the Power Cost Adjustment Clause.

(f) Regulatory Assets and Liabilities-

The Company is subject to the provisions of Statement of Financial Accounting Standards (SFAS) No. 71, "Accounting for the Effects of Certain Types of Regulation." Regulatory assets represent probable future revenue associated with certain incurred costs which will be recovered from customers through the ratemaking process. Regulatory liabilities represent costs previously collected that are refundable in future customer rates.

Name of Respondent	This Report is: (1) <input checked="" type="checkbox"/> An Original (2) <input type="checkbox"/> A Resubmission	Date of Report (Mo, Da, Yr) 04/01/2002	Year of Report Dec 31, 2001
Consolidated Water Power Company			
NOTES TO FINANCIAL STATEMENTS (Continued)			

The following regulatory assets and liabilities were reflected in the Company's Balance Sheets as of December 31:

	2001	2000
Regulatory Asset-		
Tax Effects of Depreciation	\$123,284	\$134,492
Regulatory Liabilities-		
Future Revenue Impact of Investment Tax		
Credit Amortization	\$262,289	\$278,633
Derivative Market Value Adjustment	240,115	-
(See Note 5(g))		
	\$502,404	\$278,633

(g) Derivative Instruments-

The Company enters into certain power purchase contracts that meet the definition of a derivative under SFAS 133. The Company uses such derivative instruments to hedge exposures to fluctuations in electric power prices. The Company does not use such instruments for speculative purposes. In accordance with SFAS 133, as amended by SFAS 138, "Accounting for Certain Derivative Instruments and Certain Hedging Activities – an Amendment of SFAS 133," the fair value of all derivatives is recorded as assets (account 186) or liabilities (account 253) on the Balance Sheets. Changes in the fair value of these instruments are recorded as regulatory assets (account 182.3)/liabilities (account 254) because all amounts paid under the contracts are billed to customers under the Power Cost Adjustment Clause.

(6) Related Party Transactions-

During 2000, the Company owned 33.8% of the outstanding capital stock of WRP and purchased one-third of WRP's electric generation. Such purchases totaled \$1,725,042 in 2000.

WPS is a joint owner of WRP. The Company purchased \$17,343,654 of power from WPS in 2000.

WPL is a joint owner of WRP. The Company purchased \$2,431,323 of power from WPL in 2000.

(7) Intercompany Account-

The Company maintains a current intercompany account with SENA which, among other transactions, reflects the sale of electric power (\$56,797,183 and \$51,262,196 in 2001 and 2000, respectively) and the purchase of management, administrative, and accounting services (\$523,260 and \$393,000 in 2001 and 2000, respectively). In addition, all of the Company's cash transactions, including receipts for utility service rendered to other customers and disbursements for property additions, are recorded in the cash accounts for SENA with appropriate recognition in the Company's intercompany account. The balance of this intercompany account represents advances to and from SENA. This account is non-interest bearing.

(8) Federal Energy Regulatory Commission Regulation-

The Company is exempt from Federal Energy Regulatory Commission (FERC) jurisdiction under Part II of the Federal Power Act through a special rule relating to small power producers. Substantially all sales of electricity are retail sales. The Company's retail rates are regulated by the PSCW. The Company received FERC approval in 1998 to sell wholesale power at market rates. Wholesale

Name of Respondent	This Report is:	Date of Report (Mo, Da, Yr)	Year of Report
Consolidated Water Power Company	(1) <input checked="" type="checkbox"/> An Original (2) <input type="checkbox"/> A Resubmission	04/01/2002	Dec 31, 2001
NOTES TO FINANCIAL STATEMENTS (Continued)			

power sales under this market rate tariff were \$968,231 in 2001. These wholesale power sales were effectively all not through the Company's physical system, but utilized a contracted transmission path as an accommodation to the ultimate customer. No material wholesale power sales occurred during 2000.

(9) Income Taxes-

The Company files a consolidated federal tax return with its parent company, SENA, but in accordance with state law, files a separate Wisconsin tax return.

The Company's effective tax rate differs from the U.S. statutory rate due primarily to state income taxes and the dividends received deduction, and in 2000, an adjustment to reduce the deferred tax liability related to the Company's investment in WRP. The temporary difference related to the investment in WRP became taxable at the statutory tax rate in 2000. The Company had previously expected that a significant portion of the temporary difference would reverse in the form of dividends (which are taxed at a lower rate due to the dividends received deduction) rather than in the form of a sale of the investment.

Deferred taxes are determined based on the estimated future tax effects of differences between the financial statement and tax basis of assets and liabilities given the provisions of the enacted tax laws. The net deferred tax liability at December 31 is comprised of the following items:

	2001	2000
Depreciation	\$(8,922,318)	\$(9,354,242)
Deferred Investment Tax Credit	263,087	280,234
Equity Investments	1,085,301	1,234,934
FERC Relicensing Costs	474,311	553,429
Other	26,252	25,982
Total Deferred Taxes	<u>\$(7,073,367)</u>	<u>\$(7,259,663)</u>

(10) Statements of Cash Flows-

Supplemental disclosure of cash flows information includes income taxes paid of \$2,267,792 and \$256,093 for 2001 and 2000, respectively.

(11) Commitments and Contingencies-

The Company's 2002 capital budget (without consideration of the Biron gate and dam rehabilitation project discussed below) is approximately \$1,168,000. Larger, specific projects planned include the SCADA system replacement (\$556,000), annual distribution requirements (\$160,000), and rebuilding one mile of the DuBay line (\$100,000).

The Biron gate and dam rehabilitation project budget was set at \$1,300,000 during 2001. Expenditures through December 31, 2001 were \$2,400. Future expenditures of \$1,297,600 are anticipated in 2002.

To ensure an adequate supply of power, the Company has entered into purchased power contracts with several regional suppliers through December 31, 2012. Some of the contracts include a capacity or take-or-pay provisions, under which payments are required even if no quantities are purchased. The energy charge is based on actual volumes purchased; the rate varies with the supplier's actual fuel costs. In November 2001, the Company entered into a contract for the purchase of up to 53

megawatts of electric capacity and energy with a contract period from November 1, 2001 to May 31, 2011. This purchased power contract meets the definition of a derivative under SFAS 133 (see Note 5(g)). This contract was reported at its fair market value at December 31, 2001 resulting in an asset of \$240,115. Payment obligations per the contracts total approximately \$61 million through December 31, 2011, which annually are estimated to be \$7 million in 2002 and an average of \$6 million for the years 2003 through 2011.

CONSTRUCTION OVERHEADS - ELECTRIC

1. List in column (a) to kinds of overheads according to the titles used by the respondent. Charges for outside professional services for engineering fees and management or supervision fees capitalized should be shown as separate items. 2. On Page 218 furnish information concerning construction overheads. 3. A respondent should not report "none" to the page if no overhead apportionments are made, but rather should explain on Page 218 the accounting procedures, employed and the amounts of engineering, supervision and administrative costs, etc. which are directly charged to construction. 4. Enter on this page engineering, supervision, administrative, and allowance for funds used during construction, etc., which are first assigned to a blanket work order and then prorated to construction jobs.

Line No.	Description of overhead (a)	Total amount charged for the year (b)
1	None - Construction work is done by Stora Enso North America. No override is attached to	
2	labor or materials furnished by Stora Enso North America.

--	---	--	---------------------------------

GENERAL DESCRIPTION OF CONSTRUCTION OVERHEAD PROCEDURE

- For each construction overhead explain: (a) the nature and extent of work, etc. the overhead charges are intended to cover, (b) the general procedure for determining the amount capitalized, (c) the method of distribution to construction jobs, (d) whether different rates are applied to different types of construction, (e) basis of differentiation in rates for different types of construction, and (f) whether the overhead is directly or indirectly assigned.
- Show below the computation of allowance for funds used during construction rates, in accordance with the provisions of Electric Plant instructions 3(17) of the U.S. of A.
- Where a net-of-tax rate for borrowed funds is used, show the appropriate tax effect adjustment to the computations below in a manner that clearly indicates the amount of reduction in the gross rate for tax effects.

COMPUTATION OF ALLOWANCE FOR FUNDS USED DURING CONSTRUCTION RATES

For line 1(5), column (d) below, enter the rate granted in the last rate proceeding. If such is not available, use the average rate earned during the preceding three years.

1. Components of Formula (Derived from actual book balances and actual cost rates):

Line No.	Title (a)	Amount (b)	Capitalization Ratio(Percent) (c)	Cost Rate Percentage (d)
1	Average Short-Term Debt & Computation of Allowance text	S		
2	Short-term Interest			s
3	Long-Term Debt	D		d
4	Preferred Stock	P		p
5	Common Equity	C		c
6	Total Capitalization		100%	
7	Average Construction Work in Progress Balance	W		

2. Gross Rate for Borrowed Funds $s \left(\frac{S}{W} \right) + d \left(\frac{D}{D+P+C} \right) \left(1 - \frac{S}{W} \right)$ 0.00

3. Rate for Other Funds $\left[1 - \frac{S}{W} \right] \left[p \left(\frac{P}{D+P+C} \right) + c \left(\frac{C}{D+P+C} \right) \right]$ 0.00

4. Weighted Average Rate Actually Used for the Year:
- Rate for Borrowed Funds - 0.00
 - Rate for Other Funds - 0.00

Name of Respondent Consolidated Water Power Company		This Report Is: (1) <input checked="" type="checkbox"/> An Original (2) <input type="checkbox"/> A Resubmission		Date of Report (Mo, Da, Yr) 04/01/2002	Year of Report Dec. 31, 2001
ACCUMULATED PROVISION FOR DEPRECIATION OF ELECTRIC UTILITY PLANT (Account 108)					
<p>1. Explain in a footnote any important adjustments during year.</p> <p>2. Explain in a footnote any difference between the amount for book cost of plant retired, Line 11, column (c), and that reported for electric plant in service, pages 204-207, column 9d), excluding retirements of non-depreciable property.</p> <p>3. The provisions of Account 108 in the Uniform System of accounts require that retirements of depreciable plant be recorded when such plant is removed from service. If the respondent has a significant amount of plant retired at year end which has not been recorded and/or classified to the various reserve functional classifications, make preliminary closing entries to tentatively functionalize the book cost of the plant retired. In addition, include all costs included in retirement work in progress at year end in the appropriate functional classifications.</p> <p>4. Show separately interest credits under a sinking fund or similar method of depreciation accounting.</p>

INVESTMENTS IN SUBSIDIARY COMPANIES (Account 123.1)

1. Report below investments in Accounts 123.1, investments in Subsidiary Companies.
2. Provide a subheading for each company and List there under the information called for below. Sub - TOTAL by company and give a TOTAL in columns (e),(f),(g) and (h)
(a) Investment in Securities - List and describe each security owned. For bonds give also principal amount, date of issue, maturity and interest rate.
(b) Investment Advances - Report separately the amounts of loans or investment advances which are subject to repayment, but which are not subject to current settlement. With respect to each advance show whether the advance is a note or open account. List each note giving date of issuance, maturity date, and specifying whether note is a renewal.
3. Report separately the equity in undistributed subsidiary earnings since acquisition. The TOTAL in column (e) should equal the amount entered for Account 418.1.

Line No.	Description of Investment (a)	Date Acquired (b)	Date Of Maturity (c)	Amount of investment at Beginning of Year (d)

OTHER PAID-IN CAPITAL (Accounts 208-211, inc.)

Report below the balance at the end of the year and the information specified below for the respective other paid-in capital accounts. Provide a subheading for each account and show a total for the account, as well as total of all accounts for reconciliation with balance sheet, Page 112. Add more columns for any account if deemed necessary. Explain changes made in any account during the year and give the accounting entries effecting such change.

- (a) Donations Received from Stockholders (Account 208)-State amount and give brief explanation of the origin and purpose of each donation.
 (b) Reduction in Par or Stated value of Capital Stock (Account 209): State amount and give brief explanation of the capital change which gave rise to amounts reported under this caption including identification with the class and series of stock to which related.
 (c) Gain on Resale or Cancellation of Reacquired Capital Stock (Account 210): Report balance at beginning of year, credits, debits, and balance at end of year with a designation of the nature of each credit and debit identified by the class and series of stock to which related.
 (d) Miscellaneous Paid-in Capital (Account 211)-Classify amounts included in this account according to captions which, together with brief explanations, disclose the general nature of the transactions which gave rise to the reported amounts.

RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME FOR FEDERAL INCOME TAXES

1. Report the reconciliation of reported net income for the year with taxable income used in computing Federal income tax accruals and show computation of such tax accruals. Include in the reconciliation, as far as practicable, the same detail as furnished on Schedule M-1 of the tax return for the year. Submit a reconciliation even though there is no taxable income for the year. Indicate clearly the nature of each reconciling amount.
2. If the utility is a member of a group which files a consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be filed, indicating, however, intercompany amounts to be eliminated in such a consolidated return. State names of group member, tax assigned to each group member, and basis of allocation, assignment, or sharing of the consolidated tax among the group members.
3. A substitute page, designed to meet a particular need of a company, may be used as long as the data is consistent and meets the requirements of the above instructions. For electronic reporting purposes complete Line 27 and provide the substitute Page in the context of a footnote.

FOOTNOTE DATA			

Schedule Page: 261 Line No.: 30 Column: a

Consolidated Water Power Company files a consolidated federal corporation income tax return with its parent company, Stora Enso North America Corp. The tax on the consolidated return is allocated to the members of the consolidated group on the basis of the tax and tax benefit computed by each of the members as if they had filed separate returns.

Name of Respondent Consolidated Water Power Company	This Report Is: (1) <input checked="" type="checkbox"/> An Original (2) <input type="checkbox"/> A Resubmission	Date of Report (Mo, Da, Yr) 04/01/2002	Year of Report Dec. 31, 2001

TAXES ACCRUED, PREPAID AND CHARGED DURING YEAR

1. Give particulars (details) of the combined prepaid and accrued tax accounts and show the total taxes charged to operations and other accounts during the year. Do not include gasoline and other sales taxes which have been charged to the accounts to which the taxed material was charged. If the actual, or estimated amounts of such taxes are known, show the amounts in a footnote and designate whether estimated or actual amounts.
2. Include on this page, taxes paid during the year and charged direct to final accounts, (not charged to prepaid or accrued taxes.) Enter the amounts in both columns (d) and (e). The balancing of this page is not affected by the inclusion of these taxes.
3. Include in column (d) taxes charged during the year, taxes charged to operations and other accounts through (a) accruals credited to taxes accrued, (b) amounts credited to proportions of prepaid taxes chargeable to current year, and (c) taxes paid and charged direct to operations or accounts other than accrued and prepaid tax accounts.
4. List the aggregate of each kind of tax in such manner that the total tax for each State and subdivision can readily be ascertained.

TAXES ACCRUED, PREPAID AND CHARGED DURING YEAR (Continued)

5. If any tax (exclude Federal and State income taxes)- covers more then one year, show the required information separately for each tax year, identifying the year in column (a).
6. Enter all adjustments of the accrued and prepaid tax accounts in column (f) and explain each adjustment in a foot- note. Designate debit adjustments by parentheses.
7. Do not include on this page entries with respect to deferred income taxes or taxes collected through payroll deductions or otherwise pending transmittal of such taxes to the taxing authority.
8. Report in columns (i) through (l) how the taxes were distributed. Report in column (l) only the amounts charged to Accounts 408.1 and 409.1 pertaining to electric operations. Report in column (l) the amounts charged to Accounts 408.1 and 109.1 pertaining to other utility departments and amounts charged to Accounts 408.2 and 409.2. Also shown in column (l) the taxes charged to utility plant or other balance sheet accounts.
9. For any tax apportioned to more than one utility department or account, state in a footnote the basis (necessity) of apportioning such tax.

ELECTRIC OPERATING REVENUES (Account 400)

1. Report below operating revenues for each prescribed account, and manufactured gas revenues in total.
2. Report number of customers, columns (f) and (g), on the basis of meters, in addition to the number of flat rate accounts; except that where separate meter readings are added for billing purposes, one customer should be counted for each group of meters added. The -average number of customers means the average of twelve figures at the close of each month.
3. If increases or decreases from previous year (columns (c),(e), and (g)), are not derived from previously reported figures, explain any inconsistencies in a footnote.

SALES OF ELECTRICITY BY RATE SCHEDULES

- Report below for each rate schedule in effect during the year the MWh of electricity sold, revenue, average number of customer, average Kwh per customer, and average revenue per Kwh, excluding date for Sales for Resale which is reported on Pages 310-311.
- Provide a subheading and total for each prescribed operating revenue account in the sequence followed in "Electric Operating Revenues," Page 300-301. If the sales under any rate schedule are classified in more than one revenue account, List the rate schedule and sales data under each applicable revenue account subheading.
- Where the same customers are served under more than one rate schedule in the same revenue account classification (such as a general residential schedule and an off peak water heating schedule), the entries in column (d) for the special schedule should denote the duplication in number of reported customers.
- The average number of customers should be the number of bills rendered during the year divided by the number of billing periods during the year (12 if all billings are made monthly).
- For any rate schedule having a fuel adjustment clause state in a footnote the estimated additional revenue billed pursuant thereto.
- Report amount of unbilled revenue as of end of year for each applicable revenue account subheading.

--	---	--	---------------------------------

SALES FOR RESALE (Account 447)

1. Report all sales for resale (i.e., sales to purchasers other than ultimate consumers) transacted on a settlement basis other than power exchanges during the year. Do not report exchanges of electricity (i.e., transactions involving a balancing of debits and credits for energy, capacity, etc.) and any settlements for imbalanced exchanges on this schedule. Power exchanges must be reported on the Purchased Power schedule (Page 326-327).

2. Enter the name of the purchaser in column (a). Do not abbreviate or truncate the name or use acronyms. Explain in a footnote any ownership interest or affiliation the respondent has with the purchaser.

3. In column (b), enter a Statistical Classification Code based on the original contractual terms and conditions of the service as follows:
 RQ - for requirements service. Requirements service is service which the supplier plans to provide on an ongoing basis (i.e., the supplier includes projected load for this service in its system resource planning). In addition, the reliability of requirements service must be the same as, or second only to, the supplier's service to its own ultimate consumers.
 LF - for long-term service. "Long-term" means five years or Longer and "firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions (e.g., the supplier must attempt to buy emergency energy from third parties to maintain deliveries of LF service). This category should not be used for Long-term firm service which meets the definition of RQ service. For all transactions identified as LF, provide in a footnote the termination date of the contract defined as the earliest date that either buyer or seller can unilaterally get out of the contract.
 IF - for intermediate-term firm service. The same as LF service except that "intermediate-term" means longer than one year but Less than five years.
 SF - for short-term firm service. Use this category for all firm services where the duration of each period of commitment for service is one year or less.
 LU - for Long-term service from a designated generating unit. "Long-term" means five years or Longer. The availability and reliability of service, aside from transmission constraints, must match the availability and reliability of designated unit.
 IU - for intermediate-term service from a designated generating unit. The same as LU service except that "intermediate-term" means Longer than one year but Less than five years.

Line No.	Name of Company or Public Authority (Footnote Affiliations) (a)	Statistical Classification (b)	FERC Rate Schedule or Tariff Number (c)	Average Monthly Billing Demand (MW) (d)	Actual Demand (MW)

Name of Respondent Consolidated Water Power Company	This Report Is: (1) <input checked="" type="checkbox"/> An Original (2) <input type="checkbox"/> A Resubmission	Date of Report (Mo, Da, Yr) 04/01/2002	Year of Report Dec. 31, 2001
--	---	--	---------------------------------

SALES FOR RESALE (Account 447) (Continued)

OS - for other service. use this category only for those services which cannot be placed in the above-defined categories, such as all non-firm service regardless of the Length of the contract and service from designated units of Less than one year. Describe the nature of the service in a footnote.

AD - for Out-of-period adjustment. Use this code for any accounting adjustments or "true-ups" for service provided in prior reporting years. Provide an explanation in a footnote for each adjustment.

4. Group requirements RQ sales together and report them starting at line number one. After listing all RQ sales, enter "Subtotal - RQ" in column (a). The remaining sales may then be listed in any order. Enter "Subtotal-Non-RQ" in column (a) after this Listing. Enter "Total" in column (a) as the Last Line of the schedule. Report subtotals and total for columns (9) through (k)

5. In Column (c), identify the FERC Rate Schedule or Tariff Number. On separate Lines, List all FERC rate schedules or tariffs under which service, as identified in column (b), is provided.

6. For requirements RQ sales and any type of-service involving demand charges imposed on a monthly (or Longer) basis, enter the average monthly billing demand in column (d), the average monthly non-coincident peak (NCP) demand in column (e), and the average monthly coincident peak (CP)

demand in column (f). For all other types of service, enter NA in columns (d), (e) and (f). Monthly NCP demand is the maximum metered hourly (60-minute integration) demand in a month. Monthly CP demand is the metered demand during the hour (60-minute integration) in which the supplier's system reaches its monthly peak. Demand reported in columns (e) and (f) must be in megawatts.

Footnote any demand not stated on a megawatt basis and explain.

7. Report in column (g) the megawatt hours shown on bills rendered to the purchaser.

8. Report demand charges in column (h), energy charges in column (i), and the total of any other types of charges, including out-of-period adjustments, in column (j). Explain in a footnote all components of the amount shown in column (j). Report in column (k) the total charge shown on bills rendered to the purchaser.

9. The data in column (g) through (k) must be subtotaled based on the RQ/Non-RQ grouping (see instruction 4), and then totaled on the Last -line of the schedule. The "Subtotal - RQ" amount in column (g) must be reported as Requirements Sales For Resale on Page 401, line 23. The "Subtotal - Non-RQ" amount in column (g) must be reported as Non-Requirements Sales For Resale on Page 401, line 24.

10. Footnote entries as required and provide explanations following all required data.

--	---	--	---------------------------------

PURCHASED POWER (Account 555)
(Including power exchanges)

1. Report all power purchases made during the year. Also report exchanges of electricity (i.e., transactions involving a balancing of debits and credits for energy, capacity, etc.) and any settlements for imbalanced exchanges.
2. Enter the name of the seller or other party in an exchange transaction in column (a). Do not abbreviate or truncate the name or use acronyms. Explain in a footnote any ownership interest or affiliation the respondent has with the seller.
3. In column (b), enter a Statistical Classification Code based on the original contractual terms and conditions of the service as follows:

RQ - for requirements service. Requirements service is service which the supplier plans to provide on an ongoing basis (i.e., the supplier includes projects load for this service in its system resource planning). In addition, the reliability of requirement service must be the same as, or second only to, the supplier's service to its own ultimate consumers.

LF - for long-term firm service. "Long-term" means five years or longer and "firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions (e.g., the supplier must attempt to buy emergency energy from third parties to maintain deliveries of LF service). This category should not be used for long-term firm service firm service which meets the definition of RQ service. For all transaction identified as LF, provide in a footnote the termination date of the contract defined as the earliest date that either buyer or seller can unilaterally get out of the contract.

IF - for intermediate-term firm service. The same as LF service expect that "intermediate-term" means longer than one year but less than five years.

SF - for short-term service. Use this category for all firm services, where the duration of each period of commitment for service is one year or less.

LU - for long-term service from a designated generating unit. "Long-term" means five years or longer. The availability and reliability of service, aside from transmission constraints, must match the availability and reliability of the designated unit.

IU - for intermediate-term service from a designated generating unit. The same as LU service expect that "intermediate-term" means longer than one year but less than five years.

EX - For exchanges of electricity. Use this category for transactions involving a balancing of debits and credits for energy, capacity, etc. and any settlements for imbalanced exchanges.

OS - for other service. Use this category only for those services which cannot be placed in the above-defined categories, such as all non-firm service regardless of the Length of the contract and service from designated units of Less than one year. Describe the nature of the service in a footnote for each adjustment.

Line No.	Name of Company or Public Authority (Footnote Affiliations) (a)	Statistical Classification (b)	FERC Rate Schedule or Tariff Number (c)	Average Monthly Billing Demand (MW) (d)	Actual Demand (MW)

--	---	--	---------------------------------

PURCHASED POWER(Account 555) (Continued)
(Including power exchanges)

AD - for out-of-period adjustment. Use this code for any accounting adjustments or "true-ups" for service provided in prior reporting years. Provide an explanation in a footnote for each adjustment.

4. In column (c), identify the FERC Rate Schedule Number or Tariff, or, for non-FERC jurisdictional sellers, include an appropriate designation for the contract. On separate lines, list all FERC rate schedules, tariffs or contract designations under which service, as identified in column (b), is provided.
5. For requirements RQ purchases and any type of service involving demand charges imposed on a monthly (or longer) basis, enter the monthly average billing demand in column (d), the average monthly non-coincident peak (NCP) demand in column (e), and the average monthly coincident peak (CP) demand in column (f). For all other types of service, enter NA in columns (d), (e) and (f). Monthly NCP demand is the maximum metered hourly (60-minute integration) demand in a month. Monthly CP demand is the metered demand during the hour (60-minute integration) in which the supplier's system reaches its monthly peak. Demand reported in columns (e) and (f) must be in megawatts. Footnote any demand not stated on a megawatt basis and explain.
6. Report in column (g) the megawatthours shown on bills rendered to the respondent. Report in columns (h) and (i) the megawatthours of power exchanges received and delivered, used as the basis for settlement. Do not report net exchange.
7. Report demand charges in column (j), energy charges in column (k), and the total of any other types of charges, including out-of-period adjustments, in column (l). Explain in a footnote all components of the amount shown in column (l). Report in column (m) the total charge shown on bills received as settlement by the respondent. For power exchanges, report in column (m) the settlement amount for the net receipt of energy. If more energy was delivered than received, enter a negative amount. If the settlement amount (l) include credits or charges other than incremental generation expenses, or (2) excludes certain credits or charges covered by the agreement, provide an explanatory footnote.
8. The data in column (g) through (m) must be totalled on the last line of the schedule. The total amount in column (g) must be reported as Purchases on Page 401, line 10. The total amount in column (h) must be reported as Exchange Received on Page 401, line 12. The total amount in column (i) must be reported as Exchange Delivered on Page 401, line 13.
9. Footnote entries as required and provide explanations following all required data.

TRANSMISSION OF ELECTRICITY BY OTHERS (Account 565) (Including transactions referred to as "wheeling")							
<p>1. Report all transmission, i.e., wheeling of electricity provided to respondent by other electric utilities, cooperatives, municipalities, or other public authorities during the year.</p> <p>2. In column (a) report each company or public authority that provide transmission service. Provide the full name of the company; abbreviate if necessary, but do not truncate name or use acronyms. Explain in a footnote any ownership interest in or affiliation with the transmission service provider.</p> <p>3. Provide in column (a) subheadings and classify transmission service purchased from other utilities as: "Delivered Power to Wheeler" or "Received Power from Wheeler."</p> <p>4. Report in columns (b) and (c) the total Megawatthours received and delivered by the provider of the transmission service.</p> <p>5. In columns (d) through (g), report expenses as shown on bills or vouchers rendered to the respondent. In column (d), provide demand charges. In column (e), provide energy charges related to the amount of energy transferred. In column (f), provide the total of all other charges on bills or vouchers rendered to the respondent, including any out of period adjustments. Explain in a footnote all components of the amount shown in column (f). Report in column (g) the total charge shown on bills rendered to the respondent. If no monetary settlement was made, enter zero ("0") column (g). Provide a footnote explaining the nature of the non-monetary settlement, including the amount and type of energy or service rendered.</p> <p>6. Enter "TOTAL" in column (a) as the last Line. Provide a total amount in columns (b) through (g) as the last Line. Energy provided by the respondent for the wheeler's transmission losses should be reported on the Electric Energy Account, Page 401. If the respondent received power from the wheeler, energy provided to account for Losses should be reported on Line 19. Transmission By Others Losses, on Page 401. Otherwise, Losses should be reported on line 27, Total Energy Losses, Page 401.</p> <p>7. Footnote entries and provide explanations following all required data.</p>

DEPRECIATION AND AMORTIZATION OF ELECTRIC PLANT (Account 403, 404, 405)
 (Except amortization of acquisition adjustments)

1. Report in Section A for the year the amounts for: (a) Depreciation Expense (Account 403); (b) Amortization of Limited-Term Electric Plant (Account 404); and (c) Amortization of Other Electric Plant (Account 405).
 2. Report in Section 8 the rates used to compute amortization charges for electric plant (Accounts 404 and 405). State the basis used to compute charges and whether any changes have been made in the basis or rates used from the preceding report year.
 3. Report all available information called for in Section C every fifth year beginning with report year 1971, reporting annually only changes to columns (c) through (g) from the complete report of the preceding year.
 Unless composite depreciation accounting for total depreciable plant is followed, list numerically in column (a) each plant subaccount, account or functional classification, as appropriate, to which a rate is applied. Identify at the bottom of Section C the type of plant included in any sub-account used.
 In column (b) report all depreciable plant balances to which rates are applied showing subtotals by functional Classifications and showing composite total. Indicate at the bottom of section C the manner in which column balances are obtained. If average balances, state the method of averaging used.
 For columns (c), (d), and (e) report available information for each plant subaccount, account or functional classification Listed in column (a). If plant mortality studies are prepared to assist in estimating average service Lives, show in column (f) the type mortality curve selected as most appropriate for the account and in column (g), if available, the weighted average remaining life of surviving plant. If composite depreciation accounting is used, report available information called for in columns (b) through (g) on this basis.
 4. If provisions for depreciation were made during the year in addition to depreciation provided by application of reported rates, state at the bottom of section C the amounts and nature of the provisions and the plant items to which related.

PARTICULARS CONCERNING CERTAIN INCOME DEDUCTIONS AND INTEREST CHARGES ACCOUNTS

Report the information specified below, in the order given, for the respective income deduction and interest charges account. Provide a subheading for each account and a total for the account. Additional columns may be added if deemed appropriate with respect to any account.

(a) Miscellaneous Amortization (Account 425): Describe the nature of items included in this account, the contra account charged, the total of amortization charges for the year, and the period of amortization.

(b) Miscellaneous Income Deductions: Report the nature, payee, and amount of other income deductions for the year as required by Accounts 426.1, Donations; 426.2, Life Insurance; 426.3, Penalties; 426.4, Expenditures for Certain Civic Political and Related Activities; and 426.5, Other Deductions, of the Uniform System of Accounts. Amounts of less than 5% of each account total for the year (or \$1,000, whichever is greater) may be grouped by classes within the above accounts.

(c) Interest on Debt to Associated Companies (Account 430) – For each associated company to which interest on debt was incurred during the year, indicate the amount and interest rate respectively for (a) advances on notes, (b) advances on open account, (c) notes payable, (d) accounts payable, and (e) other debt, and total interest. Explain the nature of other debt on which interest was incurred during the year.

(d) Other Interest Expense (Account 431) – Report particulars (details) including the amount and interest rate for other interest charges incurred during the year.

REGULATORY COMMISSION EXPENSES

1. Report particulars (details) of regulatory commission expenses incurred during the current year (or incurred in previous years, if being amortized) relating to format cases before a regulatory body, or cases in which such a body was a party.
2. Report in columns (b) and (c), only the current year's expenses that are not deferred and the current year's amortization of amounts deferred in previous years.

Line No.	Description (Furnish name of regulatory commission or body the docket or case number and a description of the case) (a)	Assessed by Regulatory Commission (b)	Expenses of Utility (c)	Total Expense for Current Year (b) + (c) (d)	Deferred in Account 182.3 at Beginning of Year (e)

DISTRIBUTION OF SALARIES AND WAGES

Report below the distribution of total salaries and wages for the year. Segregate amounts originally charged to clearing accounts to Utility Departments, Construction, Plant Removals, and Other Accounts, and enter such amounts in the appropriate lines and columns provided. In determining this segregation of salaries and wages originally charged to clearing accounts, a method of approximation giving substantially correct results may be used.

MONTHLY PEAKS AND OUTPUT						
<p>1. If the respondent has two or more power systems which are not physically integrated, furnish the required information for each non-integrated system.</p> <p>2. Report in column (b) the system's energy output for each month such that the total on Line 41 matches the total on Line 20.</p> <p>3. Report in column (c) a monthly breakdown of the Non-Requirements Sales For Resale reported on Line 24. include in the monthly amounts any energy losses associated with the sales so that the total on Line 41 exceeds the amount on Line 24 by the amount of losses incurred (or estimated) in making the Non-Requirements Sales for Resale.</p> <p>4. Report in column (d) the system's monthly maximum megawatt Load (60-minute integration) associated with the net energy for the system defined as the difference between columns (b) and (c)</p> <p>5. Report in columns (e) and (f) the specified information for each monthly peak load reported in column (d).</p>

GENERATING PLANT STATISTICS (Small Plants)

1. Small generating plants are steam plants of, less than 25,000 Kw; internal combustion and gas turbine-plants, conventional hydro plants and pumped storage plants of less than 10,000 Kw installed capacity (name plate rating). 2. Designate any plant leased from others, operated under a license from the Federal Energy Regulatory Commission, or operated as a joint facility, and give a concise statement of the facts in a footnote. If licensed project, give project number in footnote.

GENERATING PLANT STATISTICS (Small Plants) (Continued)

3. List plants appropriately under subheadings for steam, hydro, nuclear, internal combustion and gas turbine plants. For nuclear, see instruction 11, Page 403. 4. If net peak demand for 60 minutes is not available, give the which is available, specifying period. 5. If any plant is equipped with combinations of steam, hydro internal combustion or gas turbine equipment, report each as a separate plant. However, if the exhaust heat from the gas turbine is utilized in a steam turbine regenerative feed water cycle, or for preheated combustion air in a boiler, report as one plant.

TRANSMISSION LINE STATISTICS

- Report information concerning transmission lines, cost of lines, and expenses for year. List each transmission line having nominal voltage of 132 kilovolts or greater. Report transmission lines below these voltages in group totals only for each voltage.
- Transmission lines include all lines covered by the definition of transmission system plant as given in the Uniform System of Accounts. Do not report substation costs and expenses on this page.
- Report data by individual lines for all voltages if so required by a State commission.
- Exclude from this page any transmission lines for which plant costs are included in Account 121, Nonutility Property.
- Indicate whether the type of supporting structure reported in column (e) is: (1) single pole wood or steel; (2) H-frame wood, or steel poles; (3) tower; or (4) underground construction. If a transmission line has more than one type of supporting structure, indicate the mileage of each type of construction by the use of brackets and extra lines. Minor portions of a transmission line of a different type of construction need not be distinguished from the remainder of the line.
- Report in columns (f) and (g) the total pole miles of each transmission line. Show in column (f) the pole miles of line on structures the cost of which is reported for the line designated; conversely, show in column (g) the pole miles of line on structures the cost of which is reported for another line. Report pole miles of line on leased or partly owned structures in column (g). In a footnote, explain the basis of such occupancy and state whether expenses with respect to such structures are included in the expenses reported for the line designated.

Line No.	DESIGNATION		VOLTAGE (KV) (Indicate where other than 60 cycle, 3 phase)		Type of Supporting Structure (e)	LENGTH (Pole miles) (In the case of underground lines report circuit miles)		Number Of Circuits (h)

TRANSMISSION LINE STATISTICS (Continued)

7. Do not report the same transmission line structure twice. Report Lower voltage Lines and higher voltage lines as one line. Designate in a footnote if you do not include Lower voltage lines with higher voltage lines. If two or more transmission line structures support lines of the same voltage, report the pole miles of the primary structure in column (f) and the pole miles of the other line(s) in column (g)
8. Designate any transmission line or portion thereof for which the respondent is not the sole owner. If such property is leased from another company, give name of lessor, date and terms of Lease, and amount of rent for year. For any transmission line other than a leased line, or portion thereof, for which the respondent is not the sole owner but which the respondent operates or shares in the operation of, furnish a succinct statement explaining the arrangement and giving particulars (details) of such matters as percent ownership by respondent in the line, name of co-owner, basis of sharing expenses of the Line, and how the expenses borne by the respondent are accounted for, and accounts affected. Specify whether lessor, co-owner, or other party is an associated company.
9. Designate any transmission line leased to another company and give name of Lessee, date and terms of lease, annual rent for year, and how determined. Specify whether lessee is an associated company.
10. Base the plant cost figures called for in columns (j) to (l) on the book cost at end of year.

Size of Conductor and Material (i)	COST OF LINE (Include in Column (j) Land, Land rights, and clearing right-of-way)			EXPENSES, EXCEPT DEPRECIATION AND TAXES				Line No.

SUBSTATIONS

1. Report below the information called for concerning substations of the respondent as of the end of the year.
2. Substations which serve only one industrial or street railway customer should not be listed below.
3. Substations with capacities of Less than 10 MVA except those serving customers with energy for resale, may be grouped according to functional character, but the number of such substations must be shown.
4. Indicate in column (b) the functional character of each substation, designating whether transmission or distribution and whether attended or unattended. At the end of the page, summarize according to function the capacities reported for the individual stations in column (f).

SUBSTATIONS (Continued)

5. Show in columns (l), (j), and (k) special equipment such as rotary converters, rectifiers, condensers, etc. and auxiliary equipment for increasing capacity.

6. Designate substations or major items of equipment leased from others, jointly owned with others, or operated otherwise than by reason of sole ownership by the respondent. For any substation or equipment operated under lease, give name of lessor, date and period of lease, and annual rent. For any substation or equipment operated other than by reason of sole ownership or lease, give name of co-owner or other party, explain basis of sharing expenses or other accounting between the parties, and state amounts and accounts affected in respondent's books of account. Specify in each case whether lessor, co-owner, or other party is an associated company.

--	---	--	---------------------------------

ENVIRONMENTAL PROTECTION FACILITIES

1. For purposes of this response, environmental protection facilities shall be defined as any building, structure, equipment, facility, or improvement designed and constructed solely for control, reduction, prevention or abatement of discharges or releases into the environment of gaseous, Liquid, or solid substances, heat, noise or for the control, reduction, prevention, or abatement of any other adverse impact of an activity on the environment.
2. Report the differences in cost of facilities installed for environmental considerations over the cost of alternative facilities which would otherwise be used without environmental considerations. Use the best engineering design achievable without environmental restrictions as the basis for determining costs without environmental considerations. It is not intended that special design studies be made for purposes of this response. Base the response on the best engineering judgment where direct comparisons are not available. Include in these differences in costs the costs or estimated costs of environmental protection facilities in service, constructed or modified in connection with the production, transmission, and distribution of electrical energy and shall be reported herein for all such environmental facilities placed in service on or after January 1, 1969, so long as it is readily determinable that such facilities were constructed or modified for environmental rather than operational purposes. Also report similar expenditures for environmental plant included in construction work in progress. Estimate the cost of facilities when the original cost is not available or facilities are jointly owned with another utility, provided the respondent explains the basis of such estimations. Examples of these costs would include a portion of the costs of tall smokestacks, underground Lines, and landscaped substations. Explain such costs in a footnote.
3. In the cost of facilities reported on this page, include an estimated portion of the cost of plant that is or will be used to provide power to operate associated environmental protection facilities. These costs may be estimations on a percentage of plant basis. Explain such estimations in a footnote.
4. Report all costs under the major classifications provided below and include, as a minimum, the items Listed-hereunder:

<p>A. Air pollution control facilities:</p> <ol style="list-style-type: none"> (1) Scrubbers, precipitators, tall smokestacks, etc. (2) Changes necessary to accommodate use of environmentally clean fuels such as Low ash or low sulfur fuels including storage and handling equipment (3) Monitoring equipment (4) Other. <p>B. Water pollution control facilities:</p> <ol style="list-style-type: none"> (1) Cooling towers, ponds, piping, pumps, etc. (2) Waste water treatment equipment (3) Sanitary waste disposal equipment (4) Oil interceptors (5) Sediment control facilities (6) Monitoring equipment (7) Other. <p>C. Solid waste disposal costs:</p> <ol style="list-style-type: none"> (1) Ash handling and disposal equipment (2) Land (3) Settling ponds (4) Other. 	<p>D. Noise abatement equipment:</p> <ol style="list-style-type: none"> (1) Structures (2) mufflers (3) Sound proofing equipment (4) Monitoring equipment (5) Other. <p>E. Esthetic costs:</p> <ol style="list-style-type: none"> (1) Architectural costs (2) Towers (3) Underground lines (4) Landscaping (5) Other. <p>F. Additional plant capacity necessary due to restricted output from existing facilities, or addition of pollution control facilities.</p> <p>G. Miscellaneous:</p> <ol style="list-style-type: none"> (1) Preparation of environmental reports (2) Fish and wildlife plants included in Accounts 330, 331, 332, and 335. (3) Parks and related facilities (4) Other.
--	--
5. In those instances when costs are composites of both actual supportable costs and estimates of costs, specify in column (f) the actual costs that are included in column (e).
6. Report construction work in progress relating to environmental facilities at Line 9.

Line No.	Classification of Cost (a)	CHANGES DURING YEAR			Balance at End of Year (e)	Actual Cost (f)
		Additions (b)	Retirements (c)	Adjustments (d)

ENVIRONMENTAL PROTECTION EXPENSES

1. Show below expenses incurred in connection with the use of environmental protection facilities, the cost of which are reported on Page 430. Where it is necessary that allocations and/or estimates of costs be made, state the basis or method used.
2. Include below the costs incurred due to the operation of environmental protection equipment, facilities, and programs.
3. Report expenses under the subheadings listed below.
4. Under Item 6 report the difference in cost between environmentally clean fuels and the alternative fuels that would otherwise be used and are available for use.
5. Under Item 7 include the cost of replacement power, purchased or generated, to compensate for the deficiency in output from existing plants due to the addition of pollution control equipment, use of alternate environmentally preferable fuels or environmental regulations of governmental bodies. Base the price of replacement power purchased on the average system price of purchased power if the actual cost of such replacement power is not known. Price internally generated replacement power at the system average cost of power generated if the actual cost of specific replacement generation is not known.
6. Under item 8 include ad valorem and other taxes assessed directly on or directly relatable to environmental facilities. Also include under Item 8 licensing and similar fees on such facilities.
7. In those instances where expenses are composed of both actual supportable data and estimates of costs, specify in column (c) the actual expenses that are included in column (b).

SALES TO ULTIMATE CUSTOMERS

1. Report data by rate schedule for all sales of retail electricity (including unbilled revenues and KWH) for each account. Show totals for each account and for combined sales to ultimate customers.
2. Report number of customers on the basis of number of meters plus the number of flat rate accounts. Where meter readings are added for billing purposes, count one customer for each group of meters so added. Compute the average on the basis of the 12 month ended figures.
3. If the customer count in any service classification includes customers counted more than once because of special services, such as water heating, etc., indicate in a footnote the number of such duplicate customers included in the classification.

MONTHLY PEAKS AND OUTPUT

1. Report hereunder the information called for pertaining to simultaneous peaks established monthly (in thousands of kilowatts) and monthly output (in thousands of kilowatt-hours).
2. Monthly peak col. (b) should be respondent's maximum kw. load as measured by the sum of its coincidental net generation and purchases plus or minus net interchange, minus temporary deliveries (not interchange) of emergency power to another system
3. State type of monthly peak reading (instantaneous (0), 15, 30, or 60 minutes integrated).
4. Monthly output should be the sum of respondent's net generation for load and purchases plus or minus net interchange and plus or minus net transmission or wheeling. Total for the year should agree with line 23 on page E-28.
5. If the utility has two or more power systems not physically connected, the information called for below should be furnished for each system.

Month	Monthly peak					Mo. output (KWH) (000's) (g)
	KW (000,s) (b)	Day of week (Mon. etc.) (c)	Day of month (1,2,3, etc.) (d)	Hour Ending (0100-2400) (e)	Type of reading (0,15,30,60) (f)

ELECTRIC DISTRIBUTION LINES

1. If a utility has available the number of poles, but not miles of pole line, it will be considered satisfactory to determine miles of pole line by multiplying number of poles by average length of span, indicating in a footnote the average span used.
2. Urban distribution lines and rural distribution lines are to be reported separately for Wisconsin and for outside the state.
3. Urban distribution lines are defined as lines inside corporate limits of incorporated places, lines in urban areas adjacent to such corporate limits, and lines in unincorporated communities with urban characteristics. All pole lines used for urban distribution, including joint distribution and transmission, other joint distribution lines, and joint use of foreign lines are to be reported

Particulars (a)	Miles of:		
	Pole line (b)	U.G. conduit (subway) (d)	Buried cable
Lines in Wisconsin:			
Urban distribution lines--primary voltage	29.986		6.372
Urban distribution lines--secondary voltage			0.450
Rural distribution lines--primary voltage	34.999		5.552
Rural distribution lines--secondary voltage			0.675
Total in Wisconsin	64.985	0	13.049
Lines outside the state:			
Urban distribution lines--primary voltage			
Urban distribution lines--secondary voltage			
Rural distribution lines--primary voltage			
Rural distribution lines--secondary voltage			
Total outside the state	0.000	0	0.000
Total lines of utility	64.985	0	13.049

ELECTRIC DISTRIBUTION METERS & LINE TRANSFORMERS

Watt-hour demand distribution meters should be included below but external demand meters should not be included.

Particulars (a)	Number of watt-hour meters (b)	Line transformers	
		Number (c)	Total cap (KVA) (d)
Number at beginning of year			
Additions			
Retirements			
Number at end year	0	0	0.0
In stock			
Locked meters on customers premises			
Inactive transformers on system			
In customers use			
In company's use			
Total end of year (as above)	0	0	0.0

NAMES OF CITIES, VILLAGES, AND TOWNS

NUMBER OF CUSTOMERS IN EACH SUPPLIED DIRECTLY WITH ELECTRICITY BY REPORTING UTILITY AT END OF YEAR

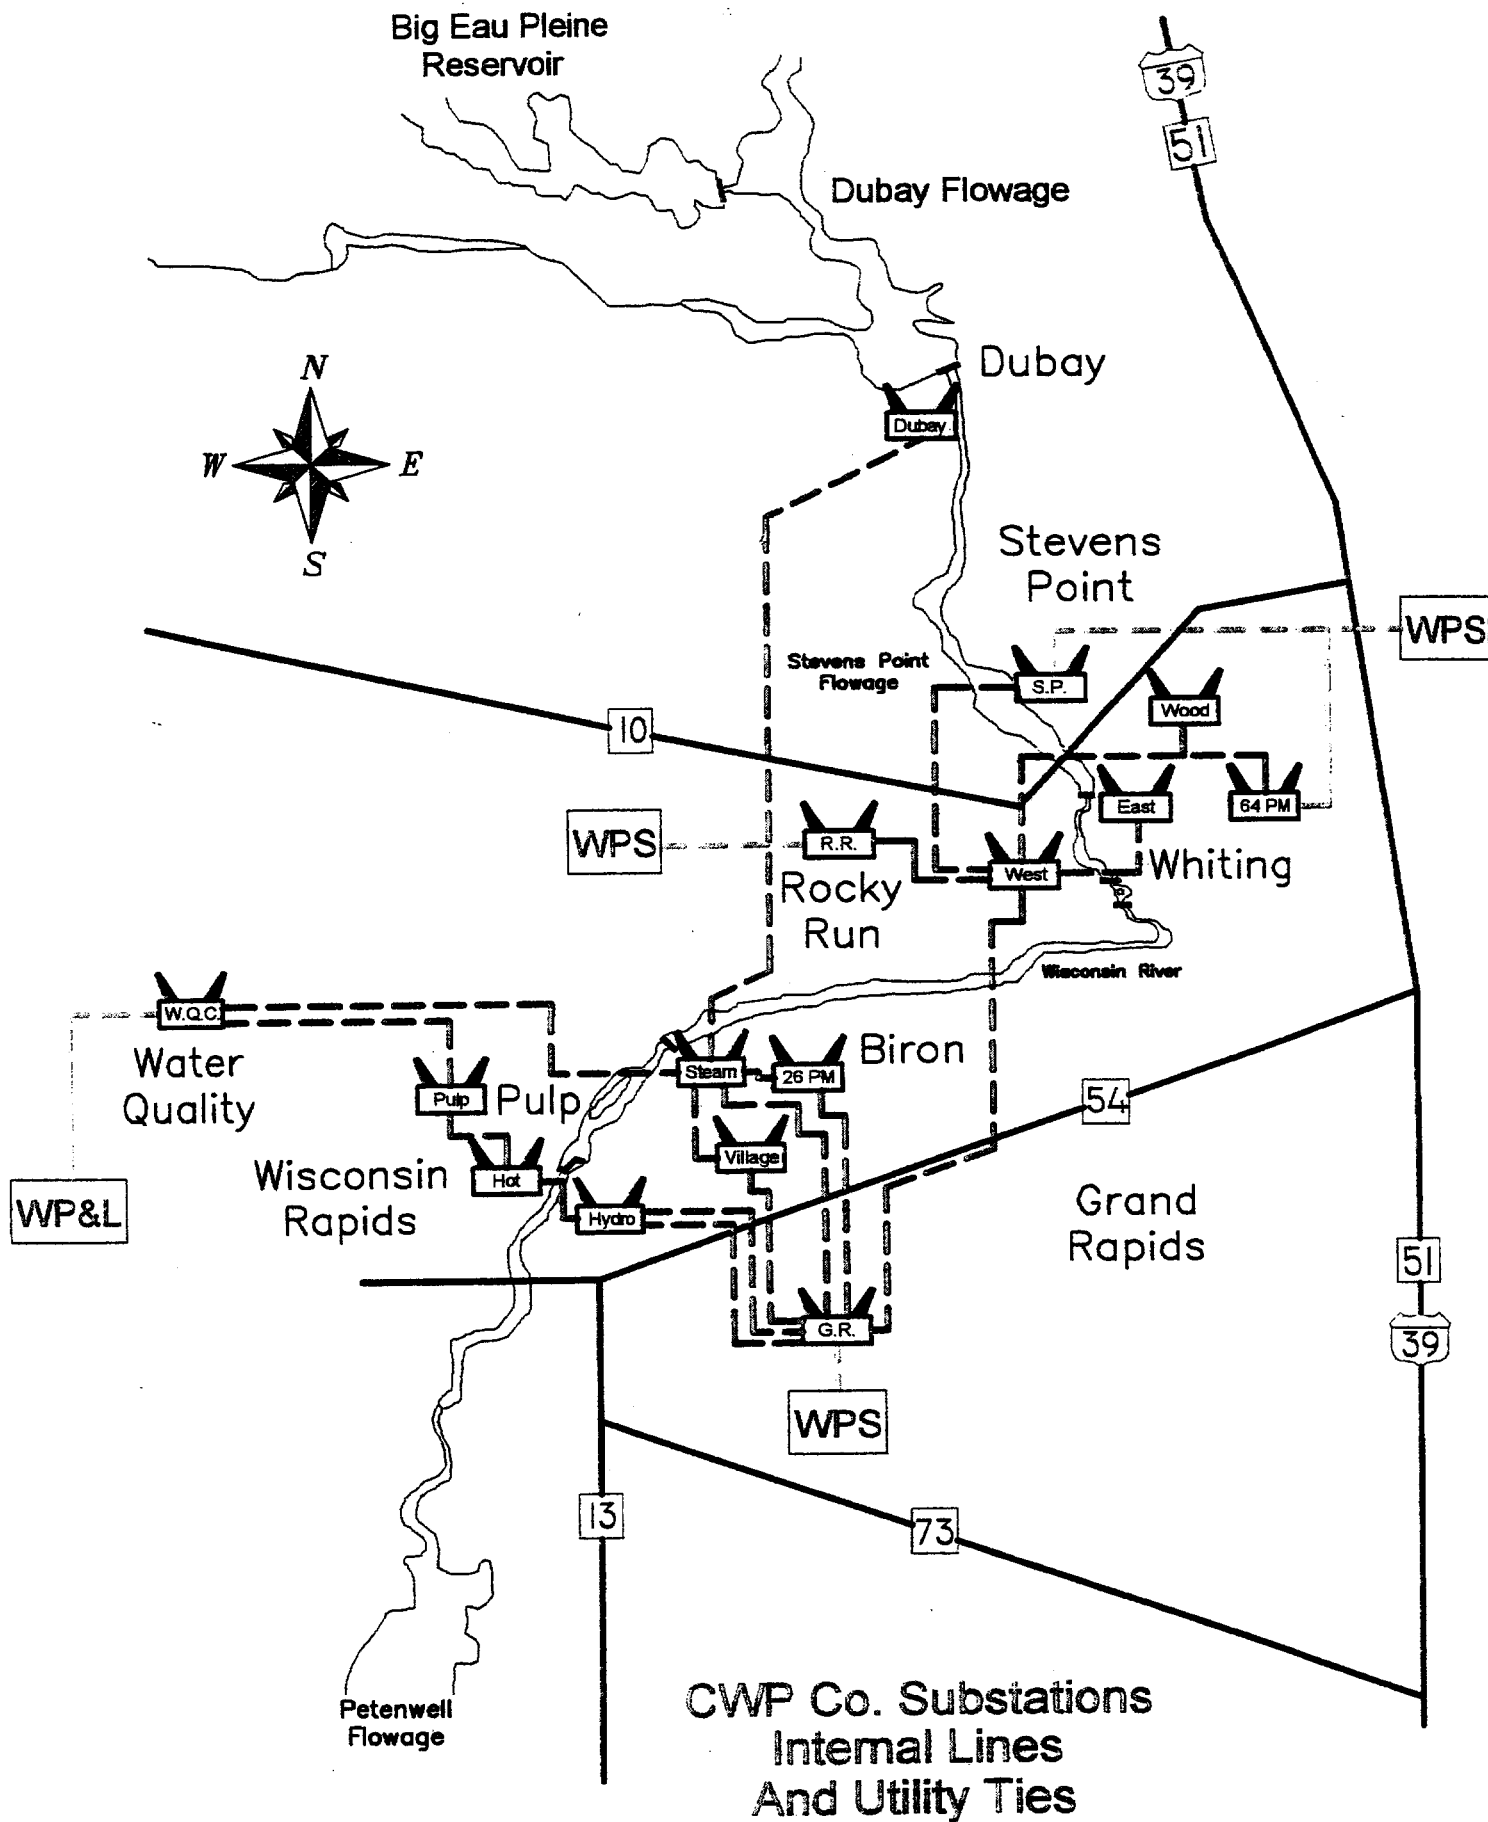

Report in alphabetical order first, cities, and second, incorporated villages. Next, report towns in alphabetical order under each county, also listed in alphabetical order. Show total for each group and for total company.
